WHEREAS, ASSIGNOR owns the United States patent applications listed on the attached Schedule (the "Patent Applications"); and

WHEREAS, ASSIGNOR and ASSIGNEE have agreed that ASSIGNEE will acquire all right, title and interest in and to the Patent Applications.

NOW, THEREFORE, for and in consideration of the sum of One Dollar (\$1.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged:

1. Assignor hereby irrevocably sells, assigns, transfers and conveys to Assignee, in perpetuity, the entire right, title and interest: (a) in and to the Patent Applications and any inventions disclosed therein (the "Inventions"); (b) in and to all rights to apply in any or all countries of the world for patents, certificates of inventions or other governmental grants on said Inventions, including the right to apply for patents pursuant to the International Convention for the Protection of Industrial Property or pursuant to any other convention, treaty, agreement or understanding; (c) in and to any and all applications filed and any and all patents, certificates of inventions or other governmental grants granted on said Inventions in the United States or any other country, including each and every application filed and each and every patent granted on any applications which is a division, substitution or continuation of any of said applications; (d) in and to each and every reissue or extension of any of said patents; (e) in and to each any every patent claim resulting from a re-examination certificate for any and all said patents; (f) including, without limitation, the right to sue for and recover damages for any past, present or future infringement of the Patent Applications and any Patents granted thereon; and (g) all other rights and licenses Assignor would have had if Assignor had not made the assignment made hereunder.

2. Assignor hereby covenants and agrees to reasonably cooperate with Assignee, at the expense of Assignee, to enable Assignee to enjoy the fullest extent the right, title and interest herein conveyed. Such cooperation by Assignor shall include prompt production of pertinent facts and documents, giving of testimony, executing of petitions, oaths, specifications, declarations or other papers, and other assistance and instructions all to the extent deemed necessary or desirable by Assignee: (a) for perfecting in said Assignee the right, title and interest herein conveyed; (b) for complying with any duty of disclosure; (c) for prosecuting any of said applications; (d) for filing and prosecuting substitute, divisional, continuing or additional applications covering said Inventions; (e) for filing and prosecuting applications for reissue of any of said patents; (f) for interference or other priority proceedings involving said Inventions; (g) for legal proceedings involving the Inventions, any applications therefore and any patents granted thereon, including without limitation opposition proceedings, cancellation proceedings, priority contests, public use proceedings, re-examination proceedings, compulsory licensing proceedings, infringement actions and court actions, provided that the reasonable expense incurred by Assignor in providing such cooperation shall be paid for by Assignee; (h) for aid in completing the filing and prosecution of a nonprovisional application claiming benefit of the application; and (i) for obtaining from Assignor's counsel transfer to Assignee of all relevant documents and materials related to the Inventions.

3. Assignor covenants that it is the sole owner and assignee and holder of record title to the above-identified Patent Applications and any patents that issue thereon and that it has full power to make the present assignment.
